MODEL CW-MOD

RGF's Advanced Washwater Recycling System For Car Washes

The **Model CW-MOD** modular, high volume car wash was developed specifically for existing car wash facilities with space limitations. The small footprint permits door access without expensive building modifications. The flexible system allows the option of utilizing your existing water storage tanks or the optional water tanks.

Advantages

- RGF is the Recognized Leader with thousand of systems installed world wide since 1985.
 - RGF has the best warranty in the business.
 - Removes free oil to less than 10 ppm.
 - Pre-wired fully automatic, easy to use, versatile.
 - Totally Non-ferrous - no rust or corrosion.
 - Removes organic and inorganic pollutants from your waste stream.
 - Automatic media filter backflush
 - Installation, Maintenance and operation manual included.
 - Components are color impregnated & UV protected to eliminate maintenance painting.
 - Low Maintenance.
 - Meets EPA stormwater runoff regulations
 - UL-508A Panel Shop Certified
 - Footprint less than 14 square feet
 - Stainless steel frame
 - Our unique Catalytic Oxidation Process eliminates the use of chlorine or floccing chemicals for odor control.
-

SPECIFICATIONS

PROCESS FLOW RATE	40 GPM
CENTRIFUGAL SEPARATOR	HIGH EFFICIENCY 24"W X 72"H
DIMENSIONS	32"W X 60"L X 85"H
ELECTRICAL	220VAC, 60 HZ, 30A, 1 PHASE
FINAL FILTRATION TYPE	POLISHING FILTERS (3) 25 MICRON
OXIDATION SYSTEM	CO3P CATALYTIC OXIDATION
PROCESS PUMP	1 1/2 HP CENTRIFUGAL
SUPPLY PUMP	1 1/2 HP CENTRIFUGAL
MULTI-MEDIA FILTER	MIXED MEDIA - AUTOMATIC BACKFLUSH
