

# RGF<sup>®</sup> ENVIRONMENTAL GROUP, INC. *Model WM-MRS-10*

RGF's Advanced Wash Water Recycling System For **Marine** pressure and steam cleaning applications

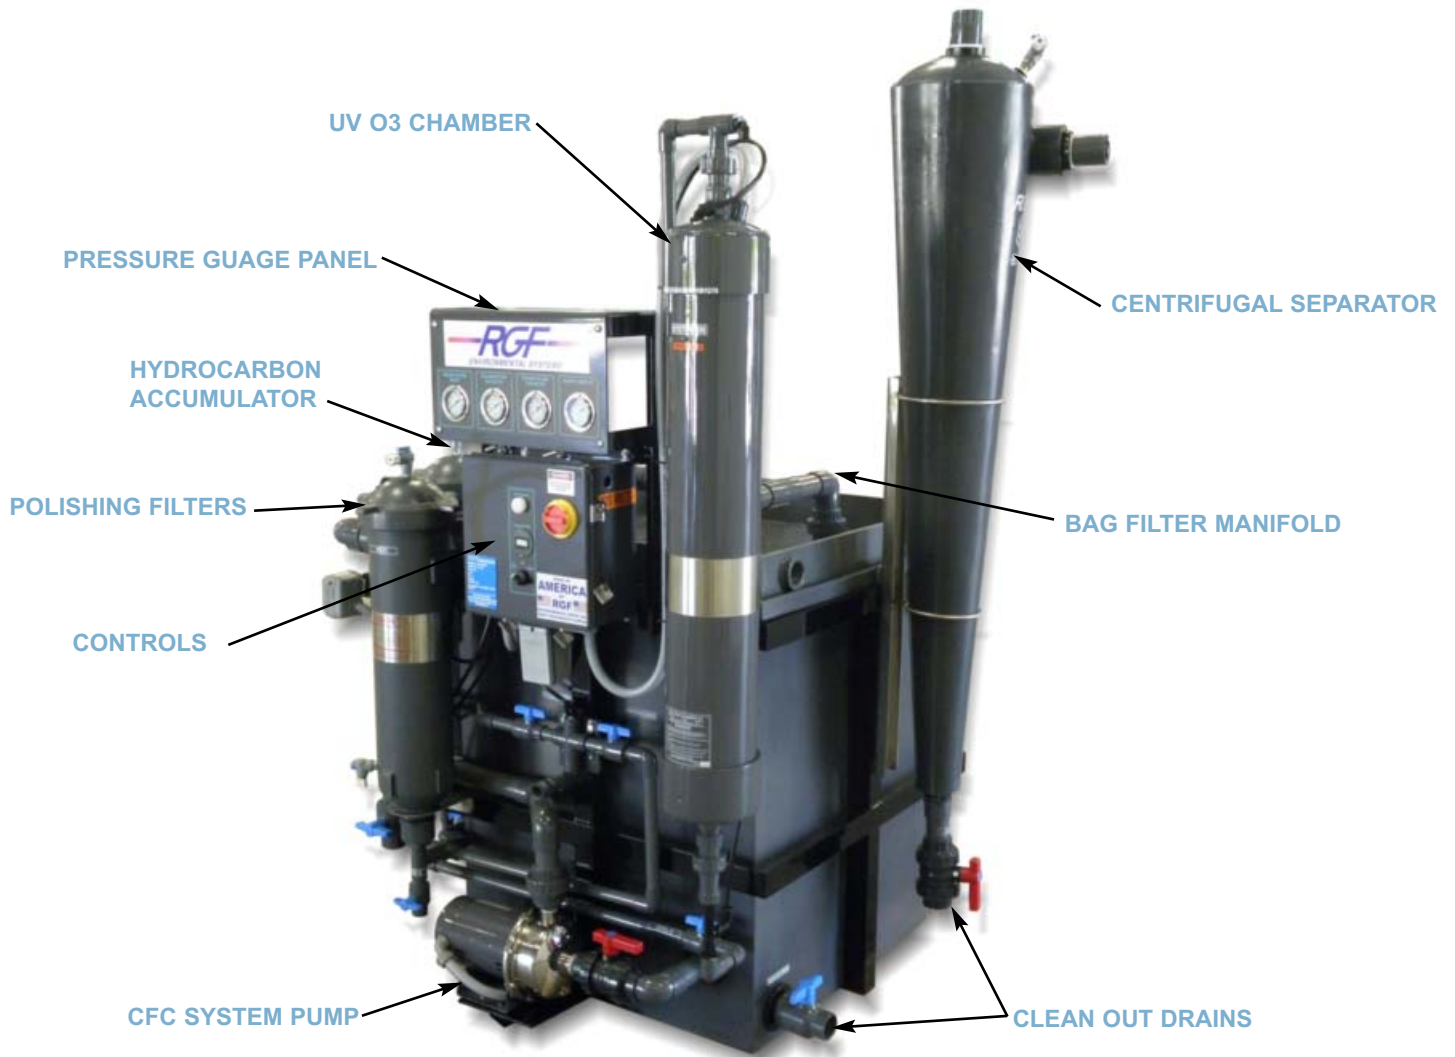

- RGF is the Recognized Leader with thousands of systems installed world wide since 1985.
- RGF has the best warranty in the business.
- Zero Discharge Closed Loop System encouraged by the E.P.A.
- No sewer connection required. No NPDES Permits needed.
- Totally Non-ferrous - no rust or corrosion.
- Our unique Catalytic Oxidation Process eliminates the use of chlorine or floccing chemicals for odor control.
- UV Protected to meet National Plumbing Code for outdoor use.
- UL 508A Panel Shop Certified
- Fully Automatic - Unattended Operation
- Components are color impregnated and UV protected to eliminate maintenance painting.

## APPLICATIONS

- Marinas
- Shipyards
- Boat Repair Facilities
- High & Dry Facilities
- Barge/Towboat Companies
- Dredging Companies
- Marine Sales/Rental Companies
- Pollution Control Facilities
- Salvage Companies
- Ship Terminals
- Fleet Companies
- Government Agencies

## OPERATION

The **WASHMASTER SYSTEM**<sup>®</sup> collects contaminated water from your wash pad, which typically contains... petroleum hydrocarbons (oil, grease, and fuels), solids, cleaning fluids, and detergents. The collected water is processed through the system and automatically delivered to the pressure or steam-cleaner for re-use.

### SPECIFICATIONS

Process Flow Rate	10 GPM
System Capacity	150 gallons
Dimensions	4' W X 4' L X 7' H
Weight	750 lbs.
Electrical	115 V, 15 Amp
Processed Water Storage	100 gallons
Final Filtration	25 Micron
