

WE ARE RGF®

Microcon® 150 Whole Home Media Air Filter

Microcon® 150 enhances your home's air quality with a high-efficiency 4-inch MERV 11 or MERV 13 filter that captures more airborne particles and allergens than standard 1-inch HVAC filters, ensuring a cleaner, healthier living environment.

Available in multiple sizes, Microcon® 150 fits a wide variety of residential and light commercial HVAC systems, making it a flexible upgrade for air conditioning systems up to 5 tons.

Microcon® 150 Features

- **High-Efficiency Filtration:** Equipped with 4-Inch MERV 11 or MERV 13 filter to capture fine airborne particles, including dust, pollen, mold spores, and pet dander.
- **Durable Construction:** The galvanized steel cabinet ensures mechanical integrity, longevity and corrosion resistance, providing reliable performance over time.
- **Easy Maintenance:** Designed for quick and hassle-free filter replacements, minimizing maintenance.
- **Versatile Installation:** Models to fit various size HVAC systems and can be installed in multiple orientations to suit your home's configuration.

Microcon® 150 Whole Home Media Air Filter
