

Bio-Oxygen[®] Chem Decon High Performance Commercial HVAC Coil Disinfection

Bio-Oxygen[®] Chem-Decon is an EPA-registered, two-part coil cleaning and disinfecting system designed for commercial HVAC applications including rooftop units, large air handlers, and evaporator/condenser coils.

Its advanced dual-action chemistry combines powerful cleaning surfactants with oxidizing Hydrogen Peroxide to break down heavy organic buildup, kill harmful microorganisms, and restore peak system performance to HVAC equipment.

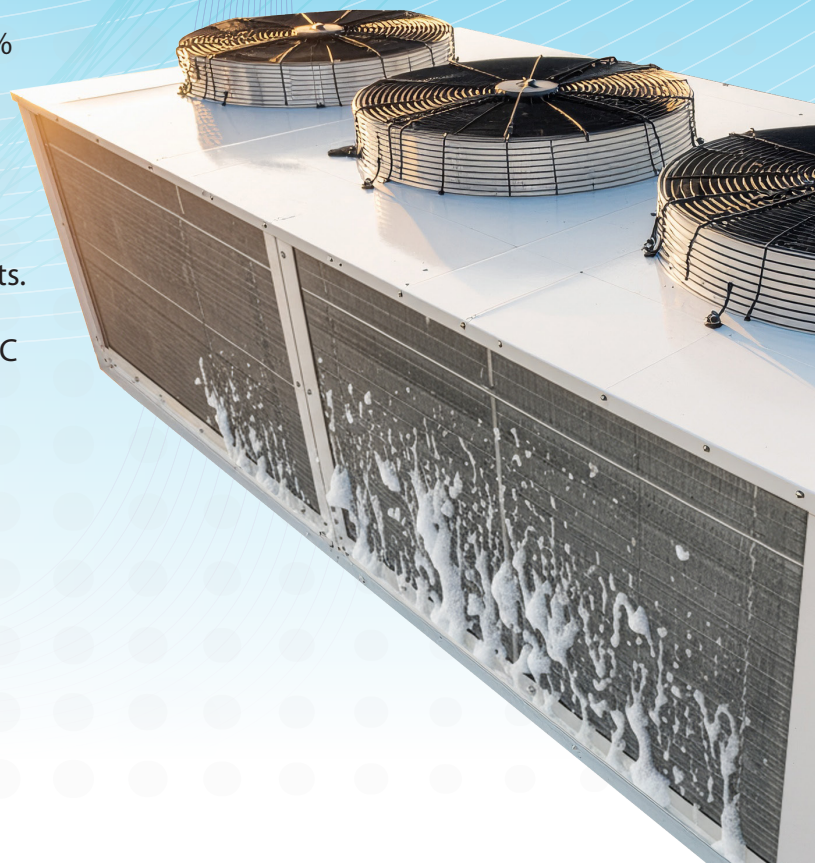

For over a decade, Artemis has delivered smarter, safer, and more reliable solutions, no corrosion, no health risks, just better performance and cleaner air.

Boosts System Performance - Penetrates coil fins for a deep clean, removing dirt, grease, mold and biofilm.

Improves IAQ and Occupant Comfort - Kills 99.9% of bacteria and fungi including *Pseudomonas aeruginosa*, *Listeria monocytogenes*, MRSA, and mold species.

Lowers Energy Costs - Clean coils improve airflow and heat transfer, reducing operational energy costs.

Equipment Friendly - Extends the life of your HVAC system and protects system components.

Key Commercial HVAC Advantages

- **Safe for technicians and the environment** no harmful chemicals, easy to mix and handle.
- **Low-foam, no rinsing needed** minimizes cleanup time and water usage.
- **Fast-acting chemistry** reduces dwell time compared to traditional coil cleaners.
- **Energy savings you can measure** immediate improvement in airflow and heat transfer.
- **Equipment Friendly** formula helps preserve coil life and safe for the environment.

Easy to Apply

- 1. Mix Equal Parts** Part A (surfactant) & Part B (hydrogen peroxide)
- 2. Apply** with low pressure sprayer or fogger.
- 3. Dwell** 5–10 minutes for cleaning, 10 minutes for disinfection.

***2 Gallons of mixed Bio-Oxygen® Chem Decon disinfects 650 square feet of coil surface.**

***Safe for aluminum and copper coils when used as directed.**

***Mixed product must be used within 24 hours**

ITEM#	PACKAGING	SHIP DIMENSIONS	SHIP WT.
BIO-OXYGEN-DECON-GAL-2	1x Gal. Part A / 1x Gal. Part B	12.5" H x 6.25" W x 12" L	17 lbs
BIO-OXYGEN-DECON-KIT-2	1x Gal. Part A / 1x Gal. Part B / 2-Gal Sprayer	12.5" H x 6.25" W x 12" L 21.25" H x 8.5" W x 8.5" L	17 lbs 5 lbs
